

## DRAFT AMENDMENT OF THE OFFICIAL STANDARDS FOR NORMAL FERTILIZERS

In response to a new application, the government will establish one new official standard for fertilizers containing agricultural chemicals mixed with compound fertilizers for home garden, based on research conducted by the independent administrative corporation Food and Agricultural Materials Inspection Center, including fertilizer efficacy tests.

### **(Establishment of the Official Standard for the Following Fertilizer)**

Fertilizer that contains agricultural chemicals and other substances

Type of fertilizer	Kinds of agricultural chemicals	Maximum permissible content of agricultural chemicals and other substances (%)
Compound fertilizer for home garden	Sodium-N'-Methoxycarbonylsulfanilamide	0.15 or less
	Potassium $\alpha$ -(2-methyl-4-chlorophenoxy)propionate	0.30 or less
